AGRO PRECAST

ABOUT US

Latkar Agro Precast specializes in the design, manufacturing, and supply of premium precast concrete solutions. We are committed to delivering highly durable, efficient, and reliable infrastructure products tailored for agricultural, commercial, residential, and civil engineering applications.

To ensure maximum structural integrity, longevity, and resistance to environmental wear, all of our products are strictly manufactured using high-strength concrete of Grade M40.

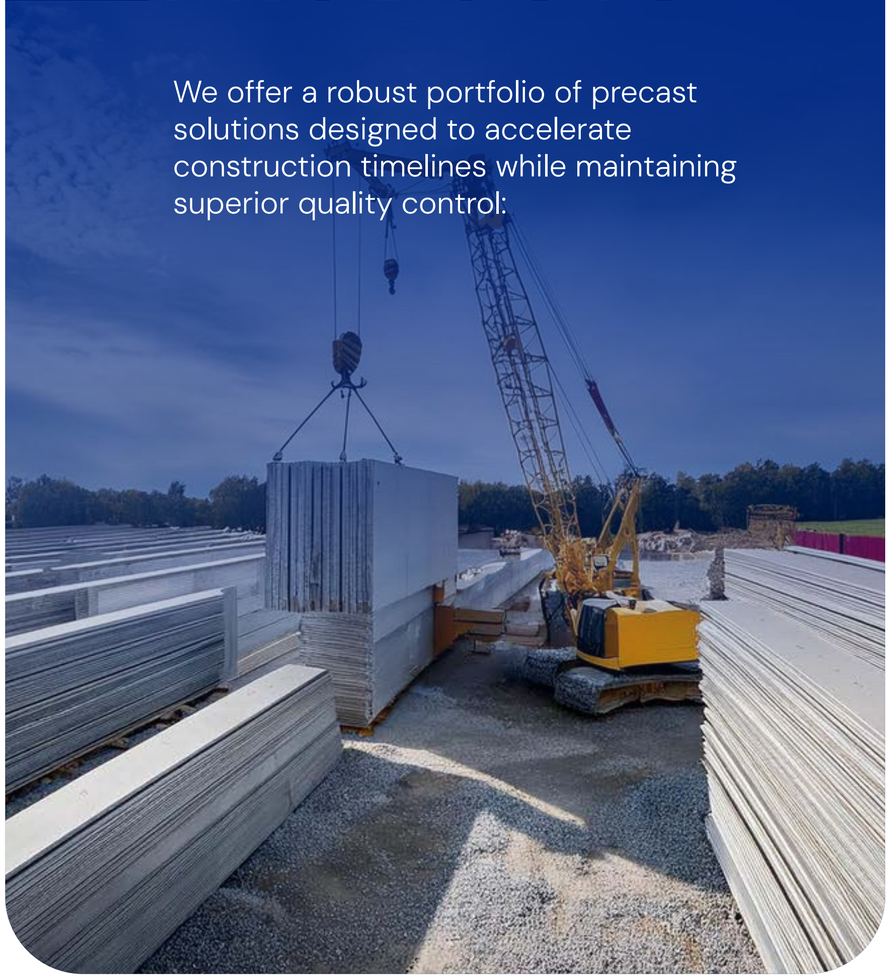

- **30,000 sq. ft. facility powering excellence since 2014**
- **Premium precast concrete solutions, engineered for performance**
- **M40 grade strength for unmatched durability**
- **Versatile applications across agri, commercial & infrastructure**

VISION

> To build a stronger future through innovative, high-grade precast concrete solutions.

OUR CORE PRODUCTS

We offer a robust portfolio of precast solutions designed to accelerate construction timelines while maintaining superior quality control:

1

Precast Boundary Walls
Quick-to-install, secure, and durable perimeter fencing solutions for various properties.

2

Precast Concrete Water & Septic Tanks

3

Precast Box Culverts
Heavy-duty, load-bearing structures ideal for drainage, road crossings, and utility tunnels.

OUR CORE PRODUCTS

We offer a robust portfolio of precast solutions designed to accelerate construction timelines while maintaining superior quality control:

The Latkar Agro Precast Advantage

By utilizing M40+ grade concrete in a controlled precast manufacturing environment, we guarantee products that offer unmatched strength, require minimal maintenance, and significantly reduce on-site installation time.

4

Precast Retaining Walls
Engineered to hold back soil and manage elevation changes safely and effectively.

5

U Drain

6

Swimming Pool
